## German Atlantic Break UNITED STATES IN A WAIT FOR FILM OF LATEST PROMISES SAY OFFICIALS

### German Assurances To Be Given Test of Time Is View of the Cabinet

Ministers Go Over Unofficial Text of Note With President—Not Yet Known How New Instructions of Germany to Submarine Commanders Compare With Previous Instructions, Which Were Given at Behest of President Wilson—Decision Not to Be Reached Until Next Week.

(By Morning Bulletin Special Wire)  
WASHINGTON, May 5.—Germany's note has postponed, if it actually has not averted, a diplomatic break with the United States. President Wilson will take his decision after he has read the official text, which reached the state department late tonight.

It was stated authoritatively after the cabinet meeting today that if the official text here on the unofficial version transmitted in today's Berlin news dispatches, Germany's assurances, unconditionally would be accepted, and before taking another step the United States would await the fulfillment of her latest promises. In such case, the United States need not reply to the note.

The German cabinet's view is that the note gives all President Wilson asked for; that it signified a return to "cruiser warfare"—the use of submarines as regular naval vessels, intercepting commerce with visit and search, and that, inasmuch as it was a modification of the armed ship question, that perplexing feature of the controversy is not involved.

Congress took the note quietly, and although a variety of views were expressed, the general sentiment seemed to be in favor of leaving the situation in the hands of the president.

Cabinet members went over the unofficial text carefully with the president, and while the cabinet refused to discuss it they reflected the view that it was a break with Germany's new assurances, which had been accepted by the president's cabinet meeting, and that, notwithstanding the references to the situation Germany expected the United States to take against British submarines, the United States would not be bound by the unofficial text.

They expressed their view with full realization of the differences of opinion as to what circumstances one set of assurances felt the threatened break with Germany, and the other set of assurances felt that Germany's assurances were not a break with the United States, and that the United States would not be bound by the unofficial text.

The United States only recently declared its views on the rights of neutral ships on the high seas, and the cabinet and provided for the conditions under which the United States would not permit its ships to be used for the transport of war materials, and that the United States would not be bound by the unofficial text.

Under such circumstances one set of assurances felt the threatened break with Germany, and the other set of assurances felt that Germany's assurances were not a break with the United States, and that the United States would not be bound by the unofficial text.

### AMERICAN PRESS COMMENT ON LATEST GERMAN NOTE

Value in Word and Promise.  
The American press has received the postponement of our April 10 note with interest and some criticism. The Register, New York, says: "The note is considerably short, at least in spirit, of what we would have liked to see. It is a failure to remove our justification for stern action."

New Britain, Conn., Herald.—Germany believes the United States government in playing favorites, and like a puffed-up balloon, it will burst. The German note is a failure to remove our justification for stern action.

It will be the president of the United States who will decide whether Germany's note is a failure to remove our justification for stern action.

Mr. and Mrs. L. T. Thompson have returned to Vancouver after spending a few days in town.

Miss Bell, who spent a few days with her parents in this place, has returned to Vancouver.

Mr. T. Hermann, who resigned his post as town clerk of Vancouver to join the military service, has been ordered to join the 11th Overseas Battalion, C.E.F. Mr. Hermann is a very capable official, and in addition, took a keen interest in matters affecting the welfare of the community. He has a large circle of friends here.

## MOTHER AND BABY.

The fond mother always has the welfare of her little one at heart. She is continually on the watch for any appearance of the maladies which threaten her little one. Thousands of mothers have learned by experience that nothing will ruin baby's health in keeping the children well. Concerning this, Mrs. Hermann writes: "Baby's Own Tablets are the best medicine I have ever used for my baby. He was very nervous, but the Tablets are sold by medicine dealers, and are free of charge to a box from The Dr. Williams' Medicine Co., Brockville, Ont."

## THE DAILY POEM

WHERE BY TREASURE IS,  
Lord of the living, when my rare is  
Will that I pass beneath the river  
Suffer my sight to dim upon some  
Of the good green.

Let my last pillow be the earth I love,  
With fair intimacies of blue above,  
And feeling, purple shadow of a cloud  
My only shroud.

A little rack, above the Morning Star,  
Shall show the tidings of my end star;  
The scaffold outside of a lone shepherd  
Shall be my knell.

And where some hero's tread the moor  
And where some hero's tread the moor  
Where yagone wolf howled round the  
of the Coast.

Hide Thou, beneath the hearth's  
My endless night.

—Eden Phillips.

trimmed with orange blossom. She car-  
ried a shower bouquet of white carnations  
and gardenias. Her bridesmaid,  
Miss Katherine McGill, was for sister's  
attendant. Mr. Hugh McGill acted  
as best man. Afterwards the bride and  
groom were taken to the house of Mr.  
and Mrs. J. N. Carey, 1929 Victoria  
street, where a reception was given.

## THIRTY-FIVE CENT. ADVANCE IN SUGAR MARKET ANNOUNCED

Sweet Stuffs are Now Listed at \$9.30 on Hundred pound Sacks—Further Increases Anticipated and Ten Cent Sugar is Predicted. Causes of the Raise Are Fundamental.

The expected rise in the price of sugar came this week with a vengeance. In fact, there was not only a rise, but there were two of them, one on Wednesday and the other yesterday. The Wednesday price per sugar from \$8.55, where it has been for the past two weeks, up to \$9.10, and the one yesterday put the price at \$9.35. The price of sugar is now at \$9.35, which is a rise of 35 cents from the price of \$8.55. The price of sugar is now at \$9.35, which is a rise of 35 cents from the price of \$8.55. The price of sugar is now at \$9.35, which is a rise of 35 cents from the price of \$8.55.

However, the high cost of sugar does not seem to have made any difference in the amount of sugar used. A recent survey of the sugar market shows that the amount of sugar used is still the same as it was a few weeks ago. The price of sugar is now at \$9.35, which is a rise of 35 cents from the price of \$8.55. The price of sugar is now at \$9.35, which is a rise of 35 cents from the price of \$8.55.

## SOLVING PROBLEM OF MAIL ORDER HOUSE

Rural Credits From Banks Would Enable Country Merchant to Compete

"If our banks would lend the farmer his working capital as they do the manufacturer, he would pay cash for the commodities he gets from the country merchant, who in turn would be in a position to pay cash to the wholesaler, and the wholesaler to the manufacturer," said Mr. McKee, secretary of the Manitoba Grain Growers' Association, when speaking before the Canadian Credit Bank, Trust Association at Winnipeg. The country merchant is the victim of the present system as much as the farmer, and it places him in such a position that he cannot successfully compete in price with the big business houses, who are not so much affected by the present system.

## One of Edmonton's Most Progressive Business Men

EDMONTON'S development as a wholesale distributing centre is due to several causes, the least of which is the type of the aggressive business men who are at the head of the local wholesale houses. J. E. Brown, who holds the position of manager of Heilman Wholesale, Ltd., is one of the men who have helped to shape the development of Edmonton as a wholesale centre, as well as one who has played a large part in public enterprises of various kinds.

Mr. Brown is an American by birth, coming to Edmonton six years ago from Traverse City, Michigan, where he had charge of a large wholesale and retail business.

He was the organizer of the Canadian-American Club and held the office of president for two years. During his residence in Edmonton, he has been a member of the Edmonton Rotary Club, the Edmonton Chamber of Commerce, and the Edmonton Y.M.C.A.

He is a director of the Edmonton Y.M.C.A. and the Edmonton Y.W.C.A.

## The Desire of God Is Toward All Men

(Written specially for the Bulletin by Rev. Dr. Griffith Thomas, D.D., Knox Press. How often would I—"and ye would not.")

The artist Wm. Hale has given to the world one of the finest pictures illustrative of the words that have just been painted. The Christ is seated on the rugged slope of Olivet whilst across the valley, in the soft light of the setting sun, the walls and towers of the Holy City stand revealed. There is no need of an inscription to declare the meaning of the picture for instinctively the words come to mind,—"O, Jerusalem, Jerusalem, thou that killest the prophets and stonest them that are sent unto thee, how often would I have gathered thy children together, even as a hen gath-

ereth her chickens under her wings—and ye would not." But the desire of Jesus expressed to ward the city and its inhabitants has a much broader scope than the picture suggests, and the sudden change from the contemplation of the city to the considering of its inhabitants' attitude is significant.

In the first place, the desire of the Son of God is toward all men, in all ages, it goes far back into the beginning of human history. The Old Testament with all its austerity is full of the expressed desire of God. The discipline of the Hebrews, through the instruments of surrounding nations, of exile and famine and sword, was everywhere and always with the purpose of bringing about their return to God who loved them.

The writer of the Epistles, with keen insight into the mind of God, expresses the relationship which He desires, in words which might have been in the Master's mind when He laments over Jerusalem. He shall cover thee with his feathers and under His wings shalt thou trust. "Jesus in the full consciousness of his pre-existence—before Abraham was, I am,"—and of His continuance to exist—"Lo, I am with you always,"—looks forward to the end of human history, to the consummation of His desire. It is expressed in many places. Perhaps the writer to the Ephesians puts it as plainly as any—"That in the fulness of the fullness of time He might gather together in one all things in heaven and on earth."

While the desire of God is unchanged, and His yearning ever toward His children, a glimpse of the merciful and loving Father, through His servants, He makes special appeals. The greatest of all appeals was when He sent His Son to bid the world return; and it is no doubt the full significance of it was on the Master's mind when He wrote over the city. What a magnificent appeal was made by the Apostles of the early church, as they zealously prosecuted their mission of world-wide evangelism.

What a glorious appeal to the Tenth century when Luther defied the taskmasters of the church in the name of truth! What a difference it would have made had the people of the German states caught the spirit of the hero and learned to love liberty more than ease! There is little doubt, had the principle of individual liberty, for which Luther risked his life and many of his associates laid theirs down, taken hold of the people in Germany, their resources accumulated through long years, would not today be wasted by the wantonness of war. How different the effect across the channel. The protest of Luther kindled the fires at Smithfield; the latter inspired the determination of the Puritans. It took a Cromwell to make it effective, and the heritage of the Britisher was secured. To the people of England and God spoke once again in no uncertain voice, when His law was broken and morality ignored; and those who responded to the Wesley-Whitfield message, small though their number when the population is considered, were because the salt of the nation.

That which makes us wonder, in the light of heaven's constant and special overtures, is the perversity of the human heart, which makes the latter part of this text true, not of Jerusalem only but of men of all times—but ye would not. We have only to look within to realize how prevalent the spirit of anarchy is. "We will not have this man to reign over us." It is not the spirit of the rebel who has real or fancied reasons for revolt but the true spirit of anarchy which has its basis in selfishness.

We do not hesitate to condemn the inhabitants of Jerusalem as a whole, nor the people of Germany as a body, for their failure to improve opportunities. Such wholesale condemnation is an easy matter, but the national failure in each case might be traced to individual sinning. I sometimes wonder just how much our nation owes to Oliver Cromwell who was man enough to undertake such a task. O, man and woman, young man and maiden, the cry of the ever living Saviour of men comes over the valley to you and there still are tears in the voice, "How often would I have gathered you, but ye would not."

DEACON WHITE CHOSEN PRESIDENT  
EDMONTON MILITARY BALL LEAGUEMan Who Has Done Much For  
Game in Past Will Head Sol-  
dier OrganizationSCHEDULE ADOPTED  
AND OFFICERS ELEGEDSix Games Will be Played Each  
Week, Two of Them at the  
South Side Park

Sergeant Deacon White, the one man who has done more to supply baseball to Edmonton in the past ten years than any other half dozen, who is now wearing the khaki in the senior local battalion, the 128th, was the unanimous choice of the delegates of the various battalions for the position of president of the Edmonton Military Baseball League, which was adopted last night. It provides for 42 games. Those in black-faced top will be played at Diamond Park, and the others at the South Side Park.

The league, which is fundamentally the result of his enthusiasm for the game, will commence operations on May 15, and the championship will be decided by June 20, to conform with the plans of the central sports committee, and the teams that finish one, two or three hundred tickets sufficient money can be raised to more than cover the league expenses at the same time placing baseball within the reach of all.

The games will be played at Diamond Park and the South Side Park, Greenway, Diamond Park being shared with the Military. Four games each week will be played at Diamond Park, and two at the South Side grounds, Mondays and Thursdays are the South Side days.

The expenses of operating a baseball league are necessarily very heavy. It was essential that some provision should be devised to secure sufficient funds to carry the league through to a proper conclusion. An admission of ten cents per game was decided upon, and, in addition to this, season tickets will be issued, which will entitle the purchaser to see every game, 42 in all, for \$1.00. The season ticket cost less than four cents per game to the khaki or civilian fan who takes them all in. By such battalion selling two or three hundred tickets sufficient money can be raised to more than cover the league expenses at the same time placing baseball within the reach of all.

Meeting Enthusiastic.

The meeting last night was a most enthusiastic one, and one which attracted a great deal of business. The two committees appointed at the previous meeting, the executive and the finance, both reported, and each had done its work well. The constitution and bye-law committee had drafted a constitution drawn up, which was adopted, and the schedule committee brought in a dummy fixture list which met with the approval of the league.

There will be seven teams in the league, and only khaki soldiers will be eligible to play during the season. Players who have been transferred or discharged from a battalion during the season of the league will be eligible for further competition, and a strict provision is made for the completion of the schedule by July 1.

The officers elected for the season are: President, Lieut. Jack Knott; Treasurer, Lieut. V. A. MacLeod; Secretary, Lieut. J. A. MacLeod; and the executive committee, composed of the representatives of the various battalions, and in addition to the above officers, the committee on the business of the league will take care to make a quarterly meeting.

The question of the games played by any battalion which has to leave the city before the completion of the schedule was discussed at some length, but this was left over for decision at the next meeting.

The delegates worked over the many questions involved in the organization until after eleven o'clock, when they adjourned to meet again next Monday evening.

Here is Joe Geddon, the "Unshorn Shave" of the West, and the new star of the Pacific coast. He is a native of Chicago, and is playing the second year for the University of Michigan. He is the brightest star in the game. Joe's batting has been a success. He has been batting .300 in the Pacific coast, and he was supposed to be a contract, but the note came that he was suffering from the same malady that

## THE CANDIDATES ARE PLENTIFUL

Many Anxious to Compete in the Great Speed Event at Indianapolis

INDIANAPOLIS, May 5.—There is no dearth of ambitious automobile race candidates, as indicated by the flood of telegrams and letters from all over the United States to the Myers, general manager of the Speedway office. Many of these letters seem to think that all one has to do to win the famous fifty annual international sweepstakes race is to take some flimsy and strip the body. There is another class of rich sportsmen who know better, and who do not count the cost, but who for the love of the sport and the fun they get out of it, try to create special cars incorporating automobile ideas are sets to themselves and attempt to show up some of the other experienced racers. A conspicuous member of the latter class is S. Osteweg, of Los Angeles, who has sent in his entry and necessary check to the Speedway management for entry of an Osteweg special, manufactured by Apperson & Co., for the May 30th race. Little is known of this car, except that it weighs about 2400 pounds, has four cylinders, 4 11-32 x 5 bore and stroke, and a piston displacement of 286 1-16 cubic inches. It is registered with the American Automobile Association as Car 189. The driver is to be S. Osteweg himself, a wealthy young business man and sportsman. He is an A.A.A. registered driver, No. 42. J. H. Bloomfield, of J. H. Booth, both registered with the A.A.A., will act as relief driver and mechanic. The Illinois entry is expected at Indianapolis some to begin practice and it can't come any too soon to satisfy the curiosity of the speedway fans, who are eager to see how it can step over the paved oval. There are no end of inquiries at the speedway office from young men who want to be drivers or mechanics. Myers and the other day that if ever the eventuality necessitated the military authorities of the U.S.A. to want to make a hurry-up call for brave young men who are willing to take into service as military chauffeurs no doubt hundreds of thousands of men might race drivers would be valuable.

### KEROSENE AS CARBON REMOVER

The question is often asked as to the merits of kerosene as a carbon remover within an engine. In using kerosene, the last thing you want to pour into the cylinders through the petcocks after the engine has been run for a few minutes and is warmed up. Then let the motor run over night with the oil inside, and in the morning how it cut along with the neglected carbon by accelerating the engine when the clutch is thrown in neutral. It is sometimes of use in running a little in through the air valve of the carburetor when the engine is running at a fairly high speed. This serves to loosen the carbon, which goes out through the exhaust. Periodic application of kerosene over night in engines is especially beneficial. Doing this at intervals of about a week usually keeps the engine reasonably free from carbon deposits.

### Notes of the Films

Constructed with a view to efficient preparation for the busy summer months, a new circular stage built under the personal direction of Cecil De Mille, is nearing completion at the studios of the Jesse L. Lasky Picture Play Company at Hollywood, Cal. Although the Lasky studios have a large place included stage of sufficient size for six companies to work simultaneously, the new circular stage will give working space for as many more. An elaborate set of six breaks or slides will be installed, and it is believed that the first work on the new stage will be done before several productions in course of making are ended. The new stage, which is placed on a concrete foundation, will be completed about the same time that the new laboratory, costing \$125,000, is put in operation.

Having just returned from Bermuda, where he went for the purpose of obtaining atmosphere for the forthcoming Panama Players production, "The Innocent Lie," in which Valentine Grant is featured, Oliver O'Connell has many interesting and amusing things to say concerning the little island.

"Mark Twain is generally supposed to say exactly what he thought about any given place. Concerning Bermuda, the distinguished humorist remarked: 'Bermuda is Heaven, but you have to go through hell to get there.' As always, he was right. Of all the rolling, itching, toasting overseas and undersea voyages the trip to the Orphan Island of the Seas takes the cookie."

"Only two of our entire company escaped the ravages of sea-sickness, one being Valentine Grant, and the other being myself. This was true of both voyages, but I must confess that neither Miss Grant nor myself exhibited the dining-room to any alarming extent. Food soon ceased to be a luxury."

Dustin Farnum, Winifred Kingston, Director William Taylor and a company of Pallas Pictures players have just returned from Wilmington, a small west coast town, where several important scenes for "Davy Crockett" were taken at the old colonial home of Hancock, showing the wealthy owner of the Catalina Islands.

Herbert Standing, the veteran Pallas-Parmount actor, has again taken up his work at the Pallas Pictures studio. The well-known character actor has suffered a slight illness brought on by the accident of a few weeks ago, when he slipped on wet concrete stairs and fell. He is now his usually smiling self and is again able to resume his most enjoyable pastime, i.e., boxing.

An old stage coach used in "David Garrick," a forthcoming Pallas-Parmount film, starting Dustin Farnum, was saved from destruction due to the quick withdrawal of a prop-boy when a Los Angeles car killed one of the horses. It was a miracle that the driver and the relic of days gone by escaped.

Sir Herbert Tree assisted greatly in the production of the Pallas-Parmount photo-play "David Garrick," starring the popular Dustin Farnum. The photo-play is set in the period with which Sir Tree as a scholar is thoroughly familiar.

## Homestead for Every Canadian Soldier

An opportunity is now presented for every called soldier to secure a homestead, the time spent on active service to count as residence duties on the land. Homesteads thus secured will be protected against cancellation, and in the event of a man receiving wounds which result in disability, he will receive his homestead duties on return from the war, he will receive his patent without further effort. The announcement should have an immediate effect in stimulating recruiting for the average homestead in value at from \$2,000 to \$5,000.

The new regulations affecting this matter are contained in the militia orders issued at Ottawa this past week. The extract on the subject is as follows:  
With reference to sections 22 and 23 of the Dominion Lands Act and the several orders in council made in pursuance of the same, the following summary of the law and the regulations, on this subject is now, through the

kindness of the hon. the minister of the interior, published for the information of all concerned:  
"(1) A volunteer, in possession of a homestead at the time of his enlistment, is allowed to count the time spent on active service as residence upon the homestead. However, during his absence his entry is protected from cancellation.  
(2) A volunteer, in possession of a homestead while on active service, receives wounds which result in disability and in-

capacitating him from the fulfillment of homestead duties, may be granted exemption from such duties, and the minister (of the interior) may, at his discretion, forthwith issue letters patent in his favor.  
The scope of the act in the foregoing particulars, has been enlarged to embrace those volunteers who may, subsequent to the date of enlistment, enter for a homestead of Dominion lands. By the operation of the new provision, the minister of the interior is empowered to consider the latter class of soldier settlers in the same way as the act provides for the bona fide settler, who, on the outbreak of hostilities enlisted for active service.

# -but here it is -the ideal car -at the ideal price

Things that were impossible yesterday are today's accomplished facts.

Somewhere in the world someone with special knowledge, special experience, special equipment, gets ready and then starts the world by accomplishing the seemingly impossible.

Almost everyone said that a complete automobile of beautiful design, fine finish, the ideal small, light, economical car, built with quality materials and absolutely completely equipped, could not be built to sell for \$850.

And but for Overland special knowledge, special experience and special equipment, it probably would still be one of the impossibilities instead of an accomplished fact.

Probably no other organization in the world can produce the quality and efficiency equal of this car to sell at anywhere near so low a price.

Certain it is that no other organization is doing so.

And no other car ever produced seems so exactly to suit the requirements of so varied a lot of people.

People of wealth, people of modest means—

People of long automobile experience—

People who never before owned a car—

All find in the small, light \$850 Overland their ideal car.

It has the beauty, comforts, conveniences, power and complete equipment which everyone wants.

Yet it is inexpensive to buy and economical to operate.

See the Overland dealer and get acquainted with this car.

But act now, as this car stands alone and the rush to own them is amazing—delayed action is almost sure to mean a long wait for delivery.

PHELAN to the judgment and final

order of the court, the following

property, with the approval of a judge

of the District Court, by Robert M. Phe-

lan, of the City of Edmonton, on Wednesday, the 2nd

day of March, 1916, at the hour of 2

o'clock, a certain quarter of section

Twenty-one, Range 6, West of the 1st

meridian, in the Province of Alberta, is

noted by the waters of Lake Wapiti

situated between the following

boundaries: North—three and one-half

acres, more or less, of the land of

the Crown, and to the west of a railway

station, and is near a school, church and

other buildings.

The property will be offered for sale

subject to a power of sale, which has been

granted to the said PheLAN, in accordance

with the conditions and covenants con-

tained in the original deed of the land

from the Crown, and in the existing crite-

## TWO AIR RAIDERS BROUGHT DOWN

British Cruiser Destroys Zeppelin—Another Lost at

Salomiki

London, May 5.—A Zeppelin was

destroyed yesterday by one of the

British light cruiser squadrons off the

Schleswig coast, says an official an-

nouncement issued by the government

today.

A Zeppelin raided Salomiki, ac-

cording to a fleet dispatch from

that city which has been confirmed.

The airship was subjected to a heavy

fire and destroyed. Only one of the

crew of the airship escaped.

CANADIAN LIFE INSURANCE COYS.

DID WELL IN 1915

Losses by Fire Last Year Half of Those Incurred in 1914.

According to the returns supplied by

R. L. Nicholson, superintendent of the

business branch of the trust de-

partment, while the American life in-

surance companies show a decrease in

business during 1915, practically all

Canadian companies have shown in-

creases. The total amount of busi-

ness done by the company in 1915

was \$1,242,327.50, as against \$1,242,327.50

in 1914. The depreciation in business is

attributable to the war and the in-

creased stringency and uncertainty of the

American companies did not take the

same risks as the companies with

their head offices in the Dominion.

The premiums paid in 1915 amount-

ed to \$2,666,327.50, with two companies

not having yet reported, as against

\$1,242,327.50 for 1914. But everything

considered, the year's business must

be regarded as good. In regard to

fire insurance, the premiums for last

year came to \$2,666,327.50, against

\$1,242,327.50 for 1914. The losses and

claims were comparatively small, being

\$2,666,327.50, compared with \$1,242,327.50

for 1914. The premium income was

\$2,666,327.50 for 1914. But, if the pre-

miums paid last year are compared

with those of 1914, the losses were

decreased from \$1,242,327.50 to

\$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

are compared with those of 1915, the

losses were decreased from \$1,242,327.50

to \$2,666,327.50. If the losses of 1914

### PROVISION FOR MAIMED MEN

Hospitals Commission May Estab-  
lish Central Depot For Supply-  
ing Artificial Limbs

T. B. Kidner, vocational secretary  
of the Dominion Military Hospitals  
commission, while in Edmonton in  
connection with the work of organ-  
izing vocational training in Alberta,  
stated that the commission had given  
a great deal of study to the question  
of artificial limbs to be supplied to  
maimed soldiers and war-disabled  
samples of the best artificial limbs  
made in all countries. It was very  
probable that a central depot would  
be established to which all men re-  
quiring artificial limbs would be sent.  
The fitting of an artificial limb, he  
mentioned, often took many weeks  
and during this time the man should  
receive special medical attention and  
might also commence their vocational  
training.

The commission is also," said Mr.  
Kidner, "giving special attention to  
the provision of suitable homes and  
treatment for what might be termed  
"borderland" cases, cases in which  
men are suffering from shock and  
acute neurasthenia as a result of  
their terrible experiences while under  
fire. These men are out of place in a  
convalescent hospital and at the  
same time they are not fit subjects  
for an insane asylum. In nearly all  
cases they recover with proper treat-  
ment.

### NO OFFICIAL NEWS WARRANTS RUMOR OF 66TH DISASTER

A report emanating from some, as  
yet, undisclosed source, has been in  
circulation in the city, according to  
effect that serious mishap has befallen  
the 66th Battalion, presumably in  
their voyage to England. No news  
has been received that would give  
the slightest foundation for the rumor and  
inquiry of official sources have re-  
vealed that no information had been received  
there. It might be mentioned that  
up to April 29, not a soldier had lost  
his life during transportation over-  
seas through operations of the enemy,  
and that the fatalities have  
landed on the other side several days  
before the fact is made public.

### CITY HAS SECURED TWO IMPORTANT POWER ORDERS

Superintendent of the  
Electric Light and Power Department  
has completed arrangements with  
C. McLean, manager of the Western  
Canada Flour Mills Ltd., for the elec-  
trification of the mills at Edmonton  
South, until recently owned and oper-  
ated by the Brockman-Ker Mill &  
Co. These mills have been acquired  
by the Western Canada Flour Mills  
Ltd., and considerable alterations, ex-  
tensions and improvements will at  
once be got under way. So far as  
the city is concerned it will probably  
mean the securing of a contract of  
considerable magnitude and the addition  
of another source of revenue. The  
department has also obtained an or-  
der from the Canadian Pacific Rail-  
way for the extending of a power ser-  
vice to the new ice-crushing plant  
east of the C.P.R. station, Edmonton  
South. The obtaining of these orders  
shows that business is not quite dead  
in Edmonton, and that the district still  
commends itself to firms of enterprise  
and ability.

### FARMER FATALLY SHOT BY HIS SON

Chaining that his parent was shoot-  
ing his mother, the young son of Wil-  
liam Gray, a farmer living about four-  
teen miles north-west of Wainwright,  
yesterday afternoon shot his father.  
Mounting a horse he fled the scene im-  
mediately following the occurrence,  
but was arrested by the North West  
Mounted Police at Hardisty. The doc-  
tors held out little hope for the re-  
covery of the injured man. The  
Gray's are Americans, and Mrs. Gray  
owns a farm in North Dakota, whence  
she returned recently.
